## TECHNICAL Data Sheet

### HURRICANE CLEANER OX

Revolutionizing Ship Maintenance with Hurricane Cleaner OX.

Hurricane Cleaner OX stands out as a groundbreaking, environmentally friendly solution for ships. Crafted from natural ingredients, it incorporates a minimal amount of biodegradable surfactants along with targeted additives designed for efficient grease and dirt removal. This versatile cleaner is effective on painted, unpainted, or raw surfaces without compromising surface gloss.

With its appealing green hue and a refreshing marine scent, Hurricane Cleaner OX leaves no traces or halos behind. Its formulation makes it especially well-suited for cleaning painted metal components, such as iron, steel, aluminum, and various metal alloys. It excels at eliminating rust, oxidation residues, dirt buildup, and encrustations, ensuring a thorough and eco-conscious cleaning experience.

## Typical physical properties

Appearance:	Blue, clear liquid
Ph ( Aqueous solution 1%):	2/3 at 20 C°
Specific weight:	1,08 Kg/Lt
Viscosity:	300/500
Dry matter content:	40% c.a
Active substance content:	38% c.a.

## Enviroment:

- MARPOL Annex III and Annex V compliant
- REACH compliant
- Readily biodegradable
- Phosphate free
- Non- corrosive when us as directed

## Application

For optimal results, dilute Hurricane Cleaner OX with water at a 50% ratio. In instances of persistent dirt, the product can be applied undiluted. Simply spray the solution onto the target surface, allowing it to sit for a few minutes before rinsing thoroughly.

## Packaging

Sizes: Tank of 25 Lt/1000 Lt
